MESSRS. EDITORS:-The action of our recent town meeting in setting apart a portion of Mt. Pleasant Cemetery for the exclusive use of a small minority of our citizens, is such an exceptional and extraordinary act of legislation, involving such serious consequences in laying our town open to possible future complications, and so affecting the reputation of our whole community, as to warrant the calling of a special town meeting for the purpose of rescinding the vote and thus redeem our town from an embarrassing position which misrepresents a large ma- the pen of Miss Marian Grey. jority of our citizens.

Professor's Evening Party In the Paris Latin Quarter.

"It was difficult to imagine that I was in the heart of Paris, among people bred and born in the capital," says a writer telling of the section of the Latin quarter in which the professors of the University of Paris have their homes. "These men, these luminaries of science, how different they looked among their womankind! Since then I have visited many professors' homes and have found them all curiously alike. No matter whether the apartment be on a second, third or fourth floor, whether it be an expensive or cheap one, the inmates are all alike, talk alike, dress alike. If you have seen one home, you have seen them all. Follow me to a fourth floor in the Rue Gay-Lussac. We are ushered into the drawing room. The furniture is mahogany, always mahogany, and of a bad period. There are no flowers, but a dusty fern in a majolica pot; on the mantelpiece a clock and a candelabra, with framed photographs in the spaces between; over the cottage piano the portrait of M. le Professeur in the green embroidered uniform of a member of the Academy of Science, with his dress sword, over which he generally stumbles. But do not think that 'the professors' families are blind to beauty. They will admire and appreciate a work of art as well as you or I, but in their homes they consider beauty a negligible quantity. They also give very little attention to their bodies-to the inner or outer man. I have often wondered whether the same tailor supplies them all with their old fashioned coats.

"Nor does the inner man fare much better. The cooks in their establishments seem to be altogether different creatures from those we meet elsewhere. They eschew slang, their grainmar is better, but their cooking is worse-very much worse-than in the homes of the less intellectual members | cature. of society. The women form a distinct type. They seem to belong to a past generation, and their dress is in keeping with the style of their hair. Living among themselves, they appear to have no notion of what is occurring in the worldly part of Paris. Their dressmakers are 'of the quarter,' and their milliners make their hats with the odds and ends brought to them. Such a thing as a fashion paper never crosses their path. I am certain these ladies are much more interested in the latest microbe than in the latest hat. They have little notion of comfort.

"An evening party at one of their houses is a never to be forgotten entertainment for the outsider. They still dance the schottish, but the greater part of the evening is devoted to what are called 'society games,' a gaping trap to the butterfly from across the Seine. I have forgotten the name of the fiendish game, but I recall that we were all seated in a ringabout thirty of us-old and young, and we had to answer questions and find out some antediluvian fact. To them it was child's play, but if it had not been for the six-year-old child of the house who prompted me I should have cut a poor figure. Retelling a Joke.

A west side man heard a joke, new to him, the other day, and the first thing he did upon reaching home for dinner was to tell it to his wife. "Mary," he said, "here's a new joke that's mighty good. One man says, 'The theater caught fire last night.' 'Did they save anything?' the second man asks. 'Yes,' says the first, 'they carried out the programme.' Isn't that a good one?" His wife said it was, and next day she tried it on her grocer. "Mr. Blank," she said, "here's a new Joke for you. One man says, 'The theater caught fire last night.' Another asks, 'Did they save anything?' 'Yes,' replies the first, 'they went on with the programme and finished it.' Isn't that a fine joke?" The grocer said it was excellent, but confidentially he acknowledges that he hasn't yet seen the

WASHINGTON LETTER

[\$pecial Correspondence.] President Roosevelt indicated to a Louisville delegation a few days ago that if there is no extra session of congress he would visit that city some

time next summer. The president went on to say that he had not formed an Itinerary and would not do so until he was able to tell whether he would get to make the trip. If there was no extra session his intentions now, he said, were to go to San Antonio to attend the annual reunion of his regiment, to be held in May. On his way there he would visit Roswell, Ga., the home of his mother, who was a Miss Bullock. From San Antonio he would go into the mountains of Colorado for a hunting expedition of possibly four or five weeks. On his return he would come by way of Louisville. He made it clear, however, that everything would depend upon whether there would be

an extra session.

All the members of the house committee on interstate and foreign commerce have come back from the isth mus with some views as to whether a sea level canal ought to be built over the Panama route, but few of them are willing to commit themselves one way or the other until the report of Chief Engineer Wallace is made. Mr. Wallace is at work on an extensive survey and will make a report before a great while that will deal with the question of a sea level canal. Senator Kittredgeof the senate committee on interoceanic canals has come back from his visit to the isthmus imbued with the belief that a sea level waterway is the only proper thing and will use his influence in that direction.

He thinks that the overflow waters of the Chagres river can be turned into the Pacific by means of a tunnel and that the principal question that mains to be settled is the additional

Many members of the house committee are said to be highly impressed with the project of a sea level canal instead of the lock and dam canal authorized by congress.

He told the police that he had been a sufferer from fits for about twenty years. "But they never made me 'holler' like that before," he said. "I guess all this excitement in the legislature made me nervous."

A Missouri member recently received a communication from a constituent, who wrote: "I understand that Joe Jefferson has retired from the stage and written a Bible. Please send me a copy." A copy of Jefferson's Bible, so called, has gone forward to this benighted Missourian. It is a copy of the red morocco bound book which Thomas Jefferson prepared and congress had photographed and reproduced a session or two ago after a prolonged squabble as to the propriety of the legislation.

LADY BOUNTIFUL

A Christmas Story

By Martha McCulloch - Williams Copyright, 1903, by Martha McCulloch-Williams

Clouds are never so black and threatening as they look to be when rising to shut away sunshine. Lettice knew that very well, being that she was country bred and spiritually as well as actual ly a daughter of the open. But in this pinch the knowledge did not help herthat is to say, she did not think of the parallel between clouds actual and metaphorical. The sun had shone for her so blithely, with such strength and power, the shutting away left her in a manner numb. Notwithstanding she had one consolation-the Farnham girl did not know. She never should know if Lettice could help it, no matter what the keeping her ignorant might cost

Lettice herself. They had never quarreled-Lettice was too thoroughbred for such a thing and the Farnham girl too politic-but from the beginning they had been intuitively antagonistic, although envi ronment enforced a certain surface cordiality, even friendliness, between them. Both were western, with yet a subtle difference. Fate had, it appeared, an eerie, even malicious, pleasure in throwing them in each other's way They had been classmates in the same fresh water college three years before they found themselves, wholly by chance, fellow lodgers in Mrs. Vanston Quigley's New York apartment,

Necessity and inclination had brought them there each to try for a literary career. By help of honest ignorance, limpid innocence, a heart ever joyous, an industry that never flagged. Lettice was now à full fledged newspaper woman, with a salary beautifully suffieient if none too large, whereas Faith Farnham, in spite of undeniable cleverness joined to a personality as striking as it was unscrupulous, had still much ado to make ends meet. That went hard with her in face of

the fact that she had an oriental delight in luxury and was withal indolent. In excuse she pleaded "temperament," whatever that may be. Withsenses, she said, or with them starve. and thwarted, she would never be able truly to express the genius burning leading its possessor into squandering her money on violets at their costliest and leaving her laundress a month unpaid, although the poor creature falter. ed out something about hungry children and rent day. Lettice, overhear-Alaska and favors the creation of a woman's hand and mentally set her down to be thrice remembered at the Christmas tree the paper she worked for was even then planning. She said nothing to the Farnham girl-except, that is, what was eloquently spoken by her altered manner. Unluckily Miss Farnham chose to hear in it other things than it was meant to express.

"I fear I shall have to go away; it burts me'so to have anybody jealous of me," she cooed to Philip Arran as Lettice flashed in and out of the parlor, with the barest brief greeting to the two. "Ever since the Century asked me to let it share my work with Scribner's Lettice-I ought really to say Miss Lane-has-been as you see her. Of course I make allowances. It must hurt dreadfully when one is ambitious, and she is frightfully so, to find you can do only low and common things. I should starve if I tried newspaper work, and I feel that I would rather starve than try it. Yet I am so glad Lettice is wiser. She really does very well at it. But, only fancy, she isn't the least bit satisfied. Mrs. Quigley says Sundays-you know she never goes to church-shé writes things-stories actually-and sends them to the magazines!"

Arran smiled at her behind his hand. Nature made him a critic. Fate gave him money; some ill fairy thrust upon him aspirations for playwriting-aspi rations that had flowered into super fluous success. Lettice had written a Sunday special about him and in writing it had so managed to strike the middle line between ridicule and panegyric as to come warmly into the kingdom of his regard. They had been had somehow managed to turn the duet into a trio. After that everything went wrong. Slight, sinuous, ethereal in delicately colored, high waisted trailing robes, with always a knot of violets at her breast, she easily put Lettice, with her rosy cheeks, he hearty laugh, her walking suit and trim hair; out of court, Arran yielded himself joyously to her tascinations. "She's a reversionary type, and a rare to study her, to see how she makes up "Take care," Lettice had answered, smiling a smile openly, honestly, un

"That's your part-you are to take care of me always," Arran had answered, speaking very low and trying

to take her hands. Then the telephone bell had rung. with the result that Lettice found her self whisked out of town for a week She came back to find Arran apparently a Farnham bond slave. The very first news she heard was that Faith was to make one of the Christmas house party at Arranmore, Philip's country place, where his widowed mother still dispensed a noble hospital ity. Lettice was also asked, but wit! Christmas but three weeks off going was out of the question. She had ne! are characteristic of the tenacity with ther the clothes nor the time. All the which the senate clings to tradition money her common sense would let be

Christmas boxes ready for dispatch to the dear folks at home. Above and beyond that the Christmas tree was specially in her charge. She had helpers galore, but those in authority had said to her. "You have never failed in anything set you; now go ahead and make this the biggest success of its kind the city ever saw."

She was doing it. Scoffers at her inexperience; her country ways; were discovering a very shrewd and level head upon her shoulders. The most part of her coworkers had fallen readily in with her enthusiasm. "Let's feel real Christmasy ourselves; then everything will come easy," she had said to them in the beginning, going on to tell artless tales, gathered by the way, of the people the tree was meant for. Before she was done the listeners were at one with her-even the scoffers, silent and ashamed of their scoffing. As a result upon the 23d of December the big trees groaned under bizarre fruitage, and all the ropes stretched above them were so laden they were a joy to the kindly heart, whatever they might have been to an artistic eye. Nothing remained but to flash up the lights, the myriad tiny electric bulbs strung along the green. Lettice turned away with a long, long sigh, too tired to be anything but very happy at this good end

For three days she had hardly thought of anything but the tree. Ten thousand gifts, good gifts, for mothers and babies otherwise giftless, 20,000 toys for little hands otherwise toyless, had seemed to her enough to crowd her own concerns aside. Back in her cozy room she ran through a sheaf of letters, her face as she read reflecting her mood as water reflects the sky. Home news made her smile softly, but wipe her eyes at the end. Three notes from aspiring strangers puckered her forehead in a reflective frown. Other notes, a handful; sent to Santa Claus and by some magic turned over to her, brought lumps of varying hardness into her throat, lumps that swelled visibly over a line from Arran, a beseeching line, "Letty, if not for Christmas, can't you come the day after?" &

She dropped it and took up the very last of the sheaf, her eyes too blurred to note the imprint in the corner, but after the first line she sat up, breathing hard, a bright red spot in either cheek, and at the end sprang up, waved the letter over her head and said in audibly, since it was 1 o'clock: "Hurrah, Lettice! Hurrah! Hurrah!

A knock, hesitating, apologetic, made her turn about to see her door open before she could speak, revealing Faith Farnham, who came in, closing it precipitately behind her, and said in her

airiest way: "Oh, Miss Santa Claus, I've come to you like the rest of the poor thingst Lend me \$50, please. I've spent every. thing on frocks and frills for this visit, and those wretched magazines are

holding up all my checks' "How funny! I got mine-my first," Lettice said, holding out a note and fluttering a blue slip so Faith could. not choose but see. "As I am \$100 better off than I thought to be, you shall have the money," she ran on. Faith, covered her face, sobbing hysterically, but held out her hand for the bills Lettice thrust in it, and, clutching them tight, ran away without a word of thanks. Lettice looked after her, wondering at herself. This vengeance ought to be sweet, yet here she was finding it bitter.' She was ashamed for womanhood, for humanity, by this clumsy lying. She flung open her window and leaned out of it, as though to let the night breeze sweep away something unsavory, unwholesome. She never understood the impulse that sent her scurrying to Faith's door, there to whisper through the barest open crack

"Don't worry, Faith. I-won't tellanybody. And I hope you'll have a real merry Christmas."

The next twenty-four hours went by in a whirl. Lettice slept normally, ate hurriedly and worked like a machine. Nothing else kept the Christmas tree enterprise from getting away from everybody, it was so unwieldy, so turbulent; so sloppily full of enthusiasm. The paper had called for volunteer helpers. They came in droves and nearly swamped the distracted regulars. But somehow, some way, the bedlam at last arranged itself in orderly semichaos. The ruler of the chaos, without whom it would at once have become uproarious, was smallish and rosy, with the blackest eyes in the world; not at all the figure of a saint, yet canonized in the heart and on the lips of one decent woman, who stood hugging a warm plaid and looking tearfully at her flock of five, brave in new shoes and each with a toy and a fat bag of sweets. What she said to the volunteer who had brought the gifts is not necessary to be written down. He listened intently and afterward went with happy, shining eyes straight up to Lettice, who started violently at sight of him.

"You've overlooked one case of destitution." he said, plucking her sleeve. "I hope you will do something about it,

Lady Bountiful." "If only I can. But we have only gewgaws left-nothing the least useful," Lettice began anxiously. Arran drew closer and said, with his lips almost on her ear: "It's my mother, sweetheart. She's fearfully in need of a daughter just such as you. Will

you come?" Lettice vows to this day there was a conspiracy. Certainly Mrs. Vanston Quigley must have been in the secret. However else should both her lodgers have been properly dressed at the Arranmore Christmas dinner, where the lady of the manor announced her son's engagement to Miss Lettice Lane?

AWILLFUL WIDOW

"So altogether I'm in a deuce of a fix," concluded Carruthers.

He sprang to his feet, looking for all the world like a big, perturbed boy as he paced restlessly across the library floor. He was so well formed, with his straight shoulders and the fine. flexible lines of his body, that he appeared to be ten years younger than the thirty-five allotted him by the family Bible. Then his brown hair would curl even at thirty-five.

"I understand," said Claridge. In truth, he did not understand at all. He had no children of his own. Indeed, he found the caprices of his fashionable wife quite sufficient to absorb his attention. But he liked Max Carruthers, and it did seem to him-

"They're such adorable little things, Max! And you're so absurdly wealthy! If it were not for our house being closed for the summer and Clotilde doing Europe for the steenth time I'd ask you to let us take the tots. One fancies that a man with your money would have no difficulty in finding a person"-A rather desperate laugh interrupted

"Ah, the 'persons' who are willing to take care of my little people. Claridge. are the bane of my existence. I've advertised; I've met and talked with them; harpies all. Some would undoubtedly give the children proper care as fan as physical requirements go, but that isn't enough. I want to find some

"Of course I think so; but, then, they're my bairns. I want some one who will give them a bit of mothering -kiss the place to make it well and that sort of thing."

"I have it!" exclaimed Claridge. He brought his fist down on the arm of his chair with a bang. "The most idyllic old home in the country that your eyes ever rested upon. It's a big, rambling house, almost covered with Virginia creeper. There's an immense, well kept lawn and clematis across the porch, and the house itself is just filled with the most delicious scents. The bedrooms are perfumy with lavender. And as for the food-why, it's something to set an anchorite sighing!"

"But what makes you think the possessor of this ideal home would welcome into it two rather lively chiliren? If it's only a question of mon ey"-

Claridge shook his head. "Go slow! That's the difficulty-it isn't a question of money at all. And my powers of persuasion may be less effective than I think with Mrs. Va-

rine, but I'll try." "Your friend is a widow, I presume?" Claridge smiled-a dry, slow, curious smile-his legal smile, Carruthers call-

"Yes; she happens to be a client of mine. Oh, yes!" he repeated, as though convincing himself of the fact. "She's a widow!"

When Carruthers called a few days later to ask if Claridge had heard from Mrs. Varine, the latter jumped up briskly.

"It's all right, Max. You are to settle the question of payment with me. Mrs. Varine says she'd rather take nothing. She's very lonely, is awfully fond of children, and is delighted at the thought of having the youngsters with her during their vacation. You'd better take them down next Thursday. Oh, by the way, there's a condition. Mrs. Varine does not wish to meet you personally!"

"What's that?" cried Carruthers, aghast.

"Well, she doesn't!" reiterated Claridge doggedly. "Maybe she has no reason but a woman's reason. Anyhow, she's entitled to her caprice. Her aunt, Miss Howard, will meet you on your arrival and show you over the place."

"Queer," muttered Carruthers. He looked up sharply. "You say you know the lady-that everything is all right?" "I say she's one of the sweetest women God ever made and that you may bless your stars she is taking your children into her home-which means

"Thanks, dear boy! You're a mighty good friend."

It was at the close of a perfect June day when a little party reached Cedarville. A surrey drawn by two fat white ponies met them. About two miles outside of town the driver turned off into a wide carriage road that wound up an avenue of elms and oaks till a turn brought in view a great sweep of em-

erald lawn, beds of scarlet geraniums, a fountain flashing in the golden light and a sleepy, old vine covered house that looked hospitable and picturesque. "Let us out, papa!" implored Eus-

"Is it fairyland?" queried Dorothy in a timid, entranced whisper.

The gentle, faded woman who received the travelers had a face like a cameo and appeared to harmonize admirably with her old fashioned surroundings. She showed Carruthers the rooms the children were to occupyairy, immaculate rooms, with blossoms nodding in at the windows. She offered him luncheon, which he declined, apologized for the invisibility of her niece and appointed a day each week he was to come to visit the children. d ...d gone fishing with Eustace; she god the piano for them while they were having a game of hide and seek, low or loud as they were "hot" or "cold." And they were going to have a party one of these days, with luncheon served under the biggest oak.

"But who is this lady who is so kin! to you?"

"She's just Florence!" they answered in chorus. "She's good as a real mamma, only she plays like she was just a little girl."

Always he heard these tales, and always, it seemed, the playmate, Florence, was the center and source of their joy. Later in the season an important business summons made it imperative that if he were to see the chils dren before his trip west he must run down at once.

Walking up the avenue, he stopped short at the bend of the path, for on the velvet sward a game of tag was in progress. A slim, graceful young girl in a pink lawn gown was the pursued.

"You're it, Florence!" cried Eustace triumphantly as he succeeded in touching the fleeing figure. And just then, as the victim paused, flushed, breathless, her copper gold hair loosened from its pins and falling in a bright shower below her waist, Dorothy caught sight of the newcomer and set up a hailing shout. "It's papa! Here's papa!" she

The captive made one wild movement toward flight, but the victor manfully held on to her. And, after a laughing protest, she came over to Carruthers, where he stood bareheaded, his eyes gleaming with admiration, and held out her hand.

"I've been doubly caught, I'm afraid, Mr. Carruthers! I did not dream you were coming today or I should not have been found engaged in such an undignified pastime. My name is Florence Varine.

He leaned forward. "Mrs. Varine's daughter?" "No." She colored deliciously. "I am

Mrs. Varine," she explained. "Impossible!" exclaimed Carruthers. He looked at her, amazed, mystified.

Why, she could not be much over twenty! And Claridge had said that she was a widow! "I was a very distant relative of Mr.

Varine's," she explained. "He wished to leave me his property, but there would have been contention and litigation on the part of others more nearly related were he to do so. But when he knew he was dying he asked me to marry him that he might legally will me all he possessed. He died an hour after the ceremony was performed. Mr. Claridge was present."

"But," stammered Carruthers, "why didn't Claridge tell me? Why was I not to see you?"

Oh, I was afraid if you knew how young and irresponsible I was you would not let me have the children to take care of. Mrs. Claridge had told me what darlings they were, and I was so lonely down here. We've had such good times together." She paused, gathering up her shining hair. She looked at him with luminous gray eyes grown suddenly apprehensive. "You won't take them away, now that you know?" she entreated.

"Assuredly not!" he made quick reply. "They are the most fortunate children in the world. For the first time since the death of their mother I have felt quite happy about them."

It was astonishing how easily the important business matters of Mr. Carruthers could be set aside. He grasped at the invitation to stay to dinner as though that meal were in truth to save him from starvation. And when he finally did discover that if he would catch his train back to the city he must exercise all haste it was with positive dismay that he left the three who stood on the terrace, waving him fare-

The next morning he walked into Claridge's office.

"You'll have to take a run out and attend to that Montana matter, Clar-

idge," he said. "I can't go." "Can't, eh? What's up? Something more important?"

"Very much more important!" He was smiling like a boy, and his eyes were shining. "Fact is, I've not been seeing enough of Eustace and Dorothy. I'm going to take a room at the hotel down there-they tell me there's good fishing to be had-and I'll see more of the children."

Claridge stared at him. Then he nodded and laughed.

"You've seen that willful little widow down at Cedarville.' Carruthers went off laughing.

When he came in a few weeks later the tan of country wind and sun was on his cheek. He walked like a conqueror, with his head up, and his voice had a ring good to hear.

"Congratulate me," he commanded. "The children are going to have the loveliest mother in all the world!"

Claridge gripped the other's hand warmly. "You're a lucky dog, Carruthers!"

"I know it, Claridge. There isn't a king under heaven I'd change places with! And those children"-

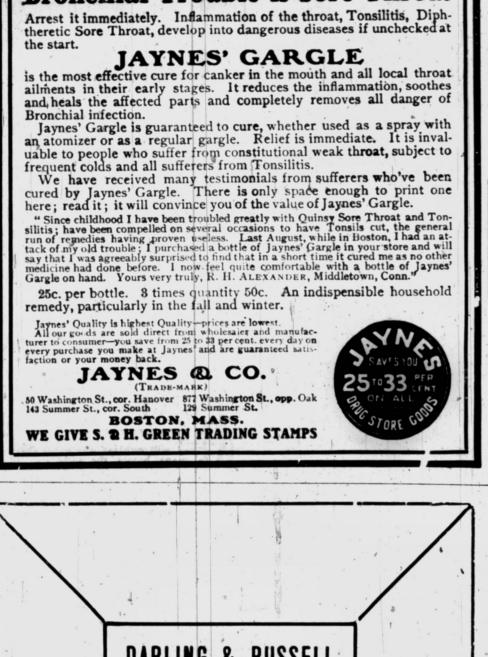

Claridge laughed leniently. "You infernal fraud!" he said.

On a New Voyage.

Though the ealendar year does not close until another week, the division of time into weeks drops our volume year back slowly but surely; and though our No. 1 of Vol. 1 was issued in January. 1872, this paper is No. 1 in Vol. 34.

For thirty years the paper has been under one general management. Primarily it was assumed as a business enterprise for securing a livelihood, of course; but it is a satisfaction to feel that in the carrying the business on so as to secure a reasonable profit, the paper has been a help to the town's growth, a defender of its good name, an influence in raising the moral tone of the community and in strengthening the hands of those who labor to make the world better by persuading individuals to higher thinking and living.

To give all the news in a concise form; to treat every one as nearly exactly alike as is possible to poor human nature; to speak the truth as we see it "whether men will hear or forbear;" to avoid the was held 1877. Church Enlargement.

On the first Sunday in December Rev. James Yeames took note of the 8th anniversary of his rectorship of St. John's Episcopal church in an appropriate sermon and gave interesting data regarding his work here during the past seven years. He also unfolded church enlargement plans to more adequately meet the needs of the parish. Some of these matters will no doubt be of public interest, as vestigation. they are now engaging the attention of the parish. In his remarks Mr. Yeames

It is stated officially that the Republican majority of 120 in the next National House of Representatives will be the largest held by any party since the foundation of the govern-ment. That party's majority in the Senate is also increased.

A striking feature of the election is the insignificant vote in the South. Ohio cast a million votes, while the nine states along the extreme southern border cast only 800,000 altogether, including third parties. People in every section know perfectly well that this is not a normal or heathful condition.

Within two weeks seventy milk dealers were convicted in New York city of selling adulterated or preserved milk. When the courts inflict prison sentences instead of fines for that crime, the business of selling such milk will cease. Theatre Notes.

The continued success of George Ade's County Chairman" at the Tremont Theatre is proof positive that the play-going public are fond of laughter and sentiment. The play, which ran for a year at Wallack's Theatre, New York, bids fair to repeat its metropolitan run in Boston, where the many pungent situations, brim full of merriment and humor, are received with the same applause as in Gotham. Mr. Ade certainly is most felicitous in his character drawing, and the types are all of distinct flavor. Aside from the gift of por-trayal and the clever satire exploited, the playwright has put his material together in vivid style. As a production, "The County Chairman" is extremely large, and the hundred people who are seen in the moving pictures of the play bespeak most clever stage manage-ment. The cast is brilliant, and each underline has made pronounced success. On Xmas Day a special matinee will be given.

The juvenile patrons of Keith's will find something special provided for them during the week commencing Monday, Dec. 26, when the doors of the theatre are to be thrown open two hours earlier than usual, viz., at 11, a. m., instead of 1, p. m. A handsome Christmas tree will be found on each floor, lavishly decorated with toys, etc., and each of the little ones will be given a souvenir, the girls a dress-ed doll and the boys a mechanical toy. Among the features of the stage performance will be the smallest performing horse in the world and the funniest monkey, which are included in Woodford's interesting troupe of educated animals. Among the noted entertainers are Bedini and Arthur and their company, in the new pantomimic comedy, "High Jinks," for which special preparations have been made in the way of trick scenery, etc.; Howard and Bland, in a new comedy sketch; Juan Caicedo, the world farmers also have a great pantomic and the second states. the world-famous slack wire artist; Paul Barnes, monologue comedian and parody sing er; Valveno and Broths, acrobats and equilibrists; and Cooper and Robinson, "real coon" comedians and vocalists. "'Who's safe?' said my grandfather

"'Mr. O'Musgrave,' said the waiter. 'The captain fired in the air.'

"It was, you see, the bullet of a duelist and of an indoor duelist at that, which had come up through the ceiling and interrupted my grandfather's meal."

A Poor Remedy.

President Finerty of the United Irish League of America was talking during the recent New York convention about a remedy for Ireland that he did not approve. "It is a senseless remedy," he said

"It is an illogical remedy."

He smiled. Then he went on: "Suppose you were a gardener. And

Then Dr. Mains smiled.

"I am reminded," he said, "of an elderly Scottish minister. At an evening gathering a certain volume of sermons came up for discussion, and it was stated that the author of the volume had cleared something like £500.

"At this the old minister's wife leaned over and whispered to him: "'My dear, I see nothing to hinder

General Sherman a Benefactor.

My uncle, General Sherman, was very fond of attending the theater. He also objected strongly, along with the rest of us lesser mortals, who dare not express our real thoughts, to having bibulous, selfish men stumble and push over his knees to get out between the acts. Ore evening a young man with the clothes and voice of a gentleman began to crowd his way to the aisle from the end of a row in which General Sherman was sitting.

"I beg a thousand pardons, general," he said as he reached my uncle. "but may I get by you?"

"Yes." said my uncle coolly as he straightened his knees behind the young man, "if you don't come back."

DESIGNING A HEAD.

An Interesting Tonsorial Operation by the Famous Whistler.

"Amazing!" the favorite ejaculation of the brilliant and eccentric artist, James MacNeill Whistler, is the word which seems best to fit the curious combination of personal peculiaritiesmischievous wit, tricksy jests, gay quarrels, harmless vanities and remarkable artistic performance-revealed in Mr. Mortimer Menpes' recent recollections of his "Master." The eccentrici- 4.20, p. m.; Sunday, 8.41, a. m.; 4.11, p. m. ties of Whistler's character were matched by those of his appearance, for he never dressed like anybody else, and he had, just over his left eye, a of black curls. His own interest in his appearance was great, for he regarded the composition of costume and coiffure with the same seriousness which he would have bestowed upon deed the result was unmistakably pic-

"Customers ceased to be interested in their own hair," says Mr. Menpes of Whistler's entrance into a barber's shop. "Operators stopped their manipulations; every one turned to watch Whistler, who himself was supremely unconscious. His hair was first trimmed, but left rather long, Whistler meanwhile directing the cutting of every lock as he watched the barber in the glass. He, poor fellow, only too conscious of the delicacy of his task, shook and trembled as he manipulated the scissors. The clipping completed, Whistler waved the operators imperiously on one side, and we observed for some time the rear view of his dapper little figure, stepping backward and forward, surveying himself in the glass. Suddenly he put his head into a basin of water, and then, half drying his hair, shook it into matted wet curls With a comb he carefully picked out the white lock, wrapped it in a towel and walked about for five minutes, pinching it dry, with the rest of his hair hanging over his face a stage which much amused the onlookers.

"Still pinching the towel, he would then beat the rest of his hair into ringlets (combing would not have given them the right quality) until they fell into decorative waves all over his head. A loud scream would then rend the air. Whistler wanted a comb. This procured, he would comb the white lock into a feathery plume and with a few broad movements of his hand form the whole into a picture. Then he would look beamingly at himself in the glass and say but two words, 'Menpes, amazing!' and sail triumphantly out of the shop."

The Lease of Life.

It is the inevitable law of nature that we must die. The vital energy that is implanted in the body at birth is only meant to sustain it for a certain number of years. It may be husbanded or wasted, made to burn slowly or rapidly. It is like the oil in a lamp and may be burned out to little effect in a little time or carefully husbanded and preserved and thus made to last longer and burn brighter.

It is a moot question whether every Methodist Book Concern was talking individual is not at birth gifted with about volumes of sermons that had the same amount of yital energy and of life sustaining power. Trimming a Freshman.

A University of Pennsylvania freshman, followed by a strapping sophomore, strolled into the buffet of a Broad street hotel the other day. The freshman slowly walked to the bar and then turned to his companion, who stood several feet behind. "Tell the man what you need," commanded the sophomore imperatively. The freshman sheepishly said to the bartender, "A glass of milk, please." While a dozen men looked on the freshman drank about half the milk. "Drink the remainder," said the sophomore. The freshman gulped it down. "Now, what should you do to show your respect and admiration for the lords of the sophomore class?" asked the sophomore. "You know what you have been "Buy the grand man a very good cigar," the freshman replied. "And what should you smoke?" queried the sophomore. "Oh, nothing!" was the hesitating reply. "Smoking isn't good for the health of children. It prevents their mental and physical growth, and their they would never get to be big." The cigar was purchased, and, turning to the amused crowd, the freshman solemnly said, "My, but the sophomores are great!" Then he wheeled and marched away in front of the sophomore to another hotel, where the same scene was rehearsed.—Philadelphia Record.

Potato of the Future.

The new potato is purplish green in color and is said to be so far superior to the common "Irish" tuber both in flavor and in yield that it is destined to month in Bethel Lodge Room. drive all competitors out of the market. It comes from the banks of the Mercedes river, in Urusuay, and is Hall probably the result of a happy horticultural accident. Claim is made that it is immune to the diseases that ordinarily afflict potatoes, but whether or not it can resist the operations of the predatory potato bug is not stated.

There is no vegetable to the improvement of which more attention has been devoted than has been bestowed upon the potato. It has been mainly, however, for increasing the size of the tuber and to augment the yield. Flavor has been almost wholly ignored, and as a consequence the potatoes of today have less flavor than those which our grandfathers ate fifty years ago. Furthermore, all of the market varieties taste pretty much alike, whereas formerly there were recognizable differences.-Philadelphia Post.

Germans In Jerusalem.

The German emperor's widely advertised visit to Jerusalem was followed by the founding of an institute for the study of oriental subjects. This has now been open one year, and, according to Mr. A. Goodrich Freer, author of 'Inner Jerusalem,' it has a large attendance of Germans, Jews, Arabs and monks of various faiths. The American school has never had more than five students.

The German suburb is the largest and in trade the most prominent in the city. Mr. Freer says that "it is to all practical purposes a picturesque German village, having its own church, public hall, band, drill hall, schools. farm, gardens and, of course, bier halle.

"Three immense orphanages, a large general hospital and a children's hospital maintained by the Germans are the only Protestant institutions of the kind upon any scale of magnitude in Jerusa-

Thus Miss Roosevelt declined an invitation to a brilliant mid-European court soon after her father's accession. Now he may perhaps relax this Roman kind of rule. Less Wheat Planted.

tial.-London Chronicle.

In this country, which contains the largest wheat producing section of the world, it is a fact borne out by government statisticians that less wheat is planted every year of late. The farmer turns to more profitable and less hazardous crops. Reports to Washington specify many sections where other crops have been substituted for wheat, not with the idea of giving the land a change, but with the intention of raising wheat no more. The wheat crop of this country, it is said, could be quadrupled, but the farmer must be paid for it if this is to be done. He can make more money out of other crops and run less risk from the elements.-Oshkosh Northwestern.

A Famous Timekeeper.

The world's best timekeeper is said to be the electric clock in the basement of the Berlin observatory, which was installed by Professor Forster in 1865. It is inclosed in an air tight glass cylinder and has frequently run for periods of two or three months with an average daily deviation of fifteen-thousandths of a second. Yet astronomers are not satisfied even with this, and efforts are continually being made to secure ideal conditions for a clock by keeping it not only in an air tight case, but in an underground vault, where neither changes of temperature nor of barometric pressure shall ever affect it.

There are several exterior views, but most of them are of the interior, giving glimpses of the several rooms, rotunda, stack room and art gallery. They can be seen in the reading room and are to be offered for sale to the public. The library has been presented with a set, in consideration for the privilege given Mr. Marshall of selling copies to townspeople or visitors who may desire them as souvenirs.

=On last Saturday evening Gateman Trembley, at the Arlington centre crossing, saved another human life. The 5.28 train in from Boston and 5.32 out from Arlington often keep the gateman busy, and last Saturday evening a man, resident in Lexington, stood on the outward track watching the passing of the other train and had Trembley not run forward and dragged him out of harm's way he would have been caught by the 5.32 train and likely killed. TO THE EDITORS: If the conditions described by "Fenelon" in your last week's issue exist, and the laws of the town or state are being in any way violated, either on Sunday or any other day, and the police or other authorities of the town fail to act in the case, there our "Law Enforcement Society," in my opinion, should promptly take up the matter, investigate and act. We want a clean town first, last and always.
